STAND's Monthly Newsletter

Genocide Education Campaign

We kicked off our Genocide Education Campaign this month! Over the next few months we will be sharing resources about genocide and atrocities in the world, hosting all-member calls and events, and pushing for genocide education policies in the United States. This month we will be highlighting our four priority areas: Burma, Yemen, the United States, and East Turkistan. Follow along on our social media and website!

Conflict Update

Check out our February Conflict Update [here](#) to read about last month's current events in Burma, Yemen, East Turkistan, the US, and more!

Interested in writing a section for March? Sign up [here](#)! You can get an hour of community service credits and become a published author on our website!

Chapter Lesson Plans

Currently, the Education Team is collaborating with our national Action Committees to produce lesson plans centered around our priority areas. These are great, easy ways to introduce STAND's central issues to your chapter! Read this month's [Yemen Lesson Plan](#), last month's [Burma Lesson Plan](#), and our database of all lesson plans [here](#)
